Software Engineering Weekly Update Meeting

Date: January 26, 2025
Location: Remote
Updated By: Sandeep Kumar
Last Updated: January 26, 2025

Agenda:

1. Review and update Milestone 1.

2. Assign tasks for the upcoming week.

3. Discussion on the AI component.

Key Points from the Meeting:

1. **Recreate SMART User Stories:**

   o Based on the client's recommendations, the team focused on revising existing user stories to adhere to the SMART criteria.

   o Added user stories specifically addressing secondary and tertiary user needs.

2. **Task Assignment:**

   o Tasks for the week were allocated among team members to ensure progress towards the next milestone.

3. **AI Discussion:**

   o Initial discussion on the integration of AI components and features, outlining areas requiring further research.
